Dear Sari,

I'm going to miss you so much.
I don't know where you're going, but if you
plan to continue practicing and take
CIGNA, let me know.

I'm still suffering from all of the unknown
symptoms I have and I am very
depressed...

Hello Dr. Edelman,

I saw that you are leaving NYU, it was a pleasure working with you. In a time when I was being dismissed by so many others, you listened and that means so much. You are a talented doctor and good person. I spoke with another patient of yours and we both agree, you take the time to listen and you really care about your patients.

Best wishes on your new endeavor.

Sincerely,

I just got a message that you are leaving NYU Langone. I am very upset at this news as I feel like you are one of the only doctors that actually listen to me, and follow through on things. Are you going anywhere local, so that I may continue to have you as my doctor? I hope so...its hard to find a good doctor it seems, especially when it comes to rheumatology. If I can't follow you, can you recommend another rheumatologist? Please let me know.

Hi Dr Edelman

I'm sorry to hear you are leaving this practice. My next follow up is not until July so I will not see you since you will no longer be with NYU by then. As far as my medical check ups, since I have been a patient of yours since 2012, I would like to continue to have you as my doctor if possible. If you will be continuing to practice as a rheumatologist can you send me your new location?

If not good luck to you. I wish you all the best!!

I was advised that you will be leaving NYU.
It was disappointing to hear. Are you going
to practice somewhere else? I would like to
continue being your patient.
If not, can you recommend who I should
see at NYU.

I am very sad to hear that you are leaving!
What a loss you will be for this practice.

Although I am sure you are very busy now, I
wonder if you can see me before you leave
as my next appointment with you was
scheduled for June 8. If not, I understand. I
had also planned to have my blood tests
tomorrow at Sunrise Labs, but I wonder if I
should now postpone the tests.

Your recommendations for my care going
forward would also be much appreciated!
